Quote of the
Fortnight

“The best preparation for tomorrow is doing your best today.”

Anon

Dear Parents and Caregivers,

I hope you all had a wonderful Easter break and enjoyed the time with your children, along with all the Easter goodies. I know I did!

Nearly the end of the term and next week will be extremely busy.

School Photos:

Next Wednesday and Thursday, the photographers will be here to capture the beautiful smiles of your children. Timetables have been given to each teacher, along with copies in the front entrance for you to check when your child's photo times are. Please remember to bring back your order sheets, along with money, or credit card details filled in, on the day. These forms go straight to the photographer on the day as they are each bar coded with your child's name. Don't forget, school uniform, hair neatly done and big smiles!

SciTech Excursion:

This will be held on Wednesday, 11th April for all Primary classes—Years 1-6. Money and permission forms must be returned in order for your child to attend this exciting excursion. Any student not attending will

be supervised at school with work to complete. Don't forget—without the permission form or the money, students cannot attend! Thanks to Mrs Waters for organising this whole school excursion—I know that everyone will have a fantastic time!

Final Assembly:

Our last assembly for Term 1 will be held on Friday, 13th April.

Our Honour Certificates will acknowledge the students who display and upheld sound Citizenship Qualities.

We look forward to seeing you all there.

School Council:

Our meeting was held on Wednesday, 4th April, and though we didn't have a quorum, the 2017 Annual Report was given out for feedback before I have to submit it to the Education Department; along with our current budget. Please forward any concerns or ideas to your parent representatives for discussion at our Council meetings. Our first meeting in 2nd Term will be held on Wednesday, 23rd May at 1:30pm.

My sincere thanks to all the parents and students for your active participation in this term's activities and events. It's been a great start to the year. Until next newsletter.....

Stephanne Dann.....Principal

Science Corner

Science News

On Wednesday 11 April Rooms 3, 4, 7 and 9 are going on an excursion to SciTech and the Planetarium. This excursion has been subsidised by the Perth International Airport. They are paying the entry to SciTech and the Planetarium plus helping with the bus fare. The cost for this fantastic excursion is \$5.50 per student. **Please make sure all payment and permission slips are made before 11 April.** The day will be a great way to celebrate a fabulous Term One for 2018.

Waste Wise

There is a new box outside Room 3 to enable you to recycle any old mobile phone or phone batteries. The EMRC are supplying the boxes and will collect the box when the batteries are collected.

Please keep the used batteries coming to the classrooms to help us win the EMRC Small School battery competition which will end in June 2018. During the holidays collect as many as you can and place them in the containers in your classroom on your return to school.

Water Wise

Fact—About 70% of an adult's body is made up of water

Tip

Reduce your lawn

Reducing your lawn to just the area you need will save water and maintenance. If there's an area of lawn that you don't use, consider converting it to a waterwise garden to save water.

Sunsmart

A tan doesn't last a life time, but skin damage does! Remember to Slip! Slop! Slap! Seek! Slide!

Crunch&Sip®

It is recommended that
primary school aged children
eat 2-3 serves of vegetables
every day.

Why not provide salad vegetables for your child
to eat during Crunch&Sip®?

Breakfast Club

On Mondays, Tuesdays and Thursdays Mr Ward, our school Chaplain, Mrs Robinson and Mrs Tero run our breakfast club for students before school. Students please come along and have a tasty breakfast.

Breakfast Club!

For all students

Monday, Tuesday, Thursday

8.15 to 8.30am

Kitchen /Garden News

The students have the vegetable beds nearly all clear of weeds and this week will be using fertilizer to enrich the soil. Next term Bunnings are coming to help plant some seedlings ready for us to start cooking. We hope that next term we can get some parent helpers to volunteer with our cooking classes and garden.

Mrs Waters- Science Co-Ordinator

Room 1

Pre-Primary - Kindy Red & Green

We had so much fun making masks for the Easter Parade.

We went on an Easter egg hunt and found lots of chocolate eggs from the Easter Bunny.

In science we have been learning how animals and objects move. Making ramps and rollercoasters was so much fun.

Harmony Day
